For mobile phones and tablets

For mobile phones and tablets

The screwdriver profiles included in this set are especially suitable for servicing mobile phones and tablets.

High protection

The electric surface resistance of the Wera ESD material is $\leq 10^9 \Omega$. This securely protects components against electrostatic energy and associated damage.

Kraftform Micro handle

Multi-component screwdriver handle for ergonomic working.

The precision zone

The precision zone directly above the blade gives the user a better feel for the right rotation angle during fine adjustment work.

The power zone

The power zone has integrated soft zones near the blade tip to ensure high torque transfer for loosening or tightening screws without losing contact with the screw.

The fast-turning zone

The fast-turning zone just below the rotating cap allows rapid spinning.

Rotating cap and fast-turning zone

The fast-turning zone just below the rotating cap allows rapid twisting. This makes time-consuming grip adjustments as with other conventional precision screwdrivers unnecessary.
