

0.96" SPI Serial 128 x 64 Characters OLED LCD Display SSD1306
for STM32 Arduino

Description

I2c IIC Serial Oled LCD LED Blue Display Module

Size: 0.96 inch

Resolution: 128*64

OLED display color: White

Viewing angle: greater than 160 degrees

Supported platforms: arduino, 51 series, MSP430 series, STM32 / 2, SCR chips

Low power consumption: 0.04W during normal operation

Interface

GND: Ground

VCC: 3.3-5V

SCL: Serial Clock

SDA: Serial Data
